

1. Vzor dokladu o opravitelnosti vozidla – anglická verze:

Declaration of vehicle repairability

Holder of the vehicle:		Specification of the vehicle:	
First name		Type	
Surname		Mark	
Company name		Model	
Identification number		VIN code	
Address		Mileage on the clock	
		Estimated current market value	
The testing procedure for the vehicle:			

Identification of the facility, where the vehicle was tested:	
Name and contact details of the authorized expert or vehicle mechanic who has tested the vehicle:	
☐	"I declare that the vehicle specified above has been repaired according to the section "The testing procedure for the vehicle", is suitable for its original purpose and can meet European safety standards ⁸⁾ . The total cost of the repair is CZK/EUR."
☐	"I declare that the vehicle specified above is suitable for use for its original purpose and after the reparation of damaged parts mentioned in the section "The testing procedure for the vehicle" can become roadworthy and can meet European safety standards ⁸⁾ . The total cost of the repair is estimated at CZK/EUR."
Signed by the authorized expert or vehicle mechanic, who has tested the vehicle:	
Date and place of the test (stamp, signature):	

⁸⁾ For example Regulation (EC) No 661/2009 of the European Parliament and of the Council of 13 July 2009 concerning type-approval requirements for the general safety of motor vehicles, their trailers and systems, components and separate technical units intended therefor.

Explanations:

Holder of the vehicle – the details of the vehicle owner before the transboundary shipment shall be provided; if the owner is a legal entity, the name of the company and the ID number shall be stated. In the case the holder is not the same person as owner, it is necessary to prove with the power of attorney the owner of the vehicle.

Specification of the vehicle – vehicle identification data (type, mark, model, VIN code, mileage on the clock, estimated market value) must be completed; the mileage on the clock must correspond to the current condition of the vehicle during transport.

The testing procedure for the vehicle – the procedure by which the test was performed on the vehicle (check of identification of the vehicle, braking system, vehicle control system, chassis and other parts of the vehicle), description of the damage found, estimated repair costs, where appropriate, a description of the repair, if any, and other relevant information.

Identification of the facility, where the vehicle was tested – name, address, identification number of the person, who performed the technical test of the vehicle.

Name and contact details of the authorized expert or vehicle mechanic, who has tested the vehicle – Authorized expert means a person authorized to carry out expert activities, an independent claims adjuster or a person with appropriate qualifications in the country of destination. Vehicle mechanic means a person authorized to do business in the field of repair and maintenance of motor vehicles or a person with appropriate qualification in the country of destination. It is a person according to § 112 paragraph 4 of the Act no. 542/2020 Coll., on end-of-life products.

Declaration – authorized expert or mechanic will indicate a suitable variant and, if the vehicle requires repair, state the estimated price of the repair in CZK or EUR.
